About NCML

NCML is India's largest, integrated post-harvest solution provider in the commodity space.

Strategic Pan- India presence, NCML provides commodity handling and risk management services to clients across the country.

FAIRFAX INDIA has majority ownership, interest and management control in NCML.

NCML LABS

NCML established CommGrade, a testing and inspection vertical, in 2005 to help the food and commodity companies with quick, reliable and accurate analytical testing data. Over the years, our brand and customer base grew to encompass a larger part of the food ecosystem. Today the testing and inspection services continue under the brand name of NCMLLABS.

Our vision is to collaborate with our clients as knowledge and solution partners to help ensure safety and quality compliance of their product and commodity. We take pride in being an integral part of nurturing of our client brands.

- NCML LABS is among India's leading brand for agri, food & beverage testing.
- 13 state of the art laboratory facilities strategically positioned across India.
- 15 + years of experience in offering Safety and Quality Analysis for Food and Agri Supply Chain.
- Regional Labs accredited by NABL, FSSAI, BIS & Department of Marketing and Inspections, GOI.
- NCML is DSIR approved laboratory for research & development projects in India.
- The labs are also recognized by APEDA, EIC, IOPEPC, Spice Board and AGMARK.
